Dedicated Internet Access

Dedicated Internet Access Advantage

Stratus delivers performance, savings and peace of mind for all its customers.

- Competitive rates backed up by Service Level Agreements (SLAs)
- Unsurpassed security
- All speeds are symmetrical
- True speeds on a Tier-1 network
- Flexible billing options online or paper based
- Dedicated project management for every deployment
- 24/7 network surveillance and support

DIA APPLICATIONS

Dedicated Internet Access (DIA) provides an internet connection that is completely dedicated to your business with guaranteed throughput speeds to keep your business connected to your customers, partners, and workforce whenever you need it. Consistent high-speed data offered with DIA is vital to businesses that have remote users, cloud applications, VoIP, and other critical business applications.

- **Surfing or hosting, outbound or inbound – to and from anywhere on the internet**
- **Unmatched reliability to efficiently support your high bandwidth applications**
- **Create Virtual Private Networks for remote access for mobile workers or business partners**
- **Enterprise network connectivity for voice, data and video**

DIA SERVICES

When safeguarding information, reliability and ease of integration are priorities. Dedicated Internet Access service presents an ideal solution. Stratus delivers scalable and secure options to meet any need.

- **Bandwidths from 10 Mbps to 10 Gbps**
- **Managed DDoS options available**
- **Proactive monitoring and support, end to end, 24/7**
- **Fully diverse backbone network for business continuity and disaster recovery applications**
- **Service available virtually anywhere in the United States**
