

BUSINESS INTERNET ACCESS

BIA APPLICATIONS

Business Internet Access (BIA) is an internet service plan for small- to medium-sized businesses where traditional broadband speeds are sufficient, and a budget-conscious solution is needed — delivered via fiber optic over the last mile to your building.

- Lower cost, budget-minded solution
- WiFi included
- Simple “Plug-n-Play” solution for ease of installation
- Recommended for businesses with basic internet needs and no IT staff
- Static IPs available with this solution if required
- Symmetrical speeds available and determined by needs and budget

BIA SERVICES

Your dedicated Stratus representative can help determine your needs and will establish a customized plan that suits your business perfectly.

BUSINESS INTERNET ACCESS ADVANTAGES

- Guaranteed Service Level Agreements
- Cost-conscious rates for smaller or budget-minded businesses
- Bandwidths provided are still dedicated, not via shared medium
- Symmetrical speeds available to support a variety of needs
- Tier-1 backbone for unsurpassed availability and reliability
- Green billing and auto-pay options available
- Dedicated project management for every deployment
- 24/7 network surveillance and support

Since 1999, companies of all sizes and varying telecom needs have engaged Stratus Networks for internet, data, cloud and voice solutions that deliver speed, reliability and security backed by our team's expertise and support.

We deliver faster, more reliable internet and communication services with a businesses-only fiber optic network built from the ground up.
